

Sophie Priest	Co-opted Governor
---------------	-------------------

I am proud to serve as a Governor at Childwall Science & Sports Academy. With extensive experience in the social impact sector, I am committed to enhancing the educational environment and life chances of our students.

In my current role as a Social Value Manager at CBRE, the world's largest commercial real estate company, I work nationally to enhance social value activities across all UK offices. My background as a Social Value Consultant, has equipped me with a deep understanding of how to drive meaningful positive change at the local level.

I am energised by working with diverse groups and building relationships grounded in trust and transparency. My commitment to social values shapes both my personal and professional life, and I am passionate about contributing to a more sustainable and equitable society for all.

I look forward to collaborating with the school community to support our students and enhance their educational experience.
