

Carol Wilson	Co-opted Governor
--------------	-------------------

I am delighted to have been appointed to the post of Governor.

I have had a varied professional background as a Nurse, Midwife and Health Visitor in the past.

However, for the last 21 years, I have worked as an Academic at Edge Hill University, currently in the role of Associate Head of Social Work and Wellbeing.

I value education and the difference it can make to the lives of individuals and whole communities and am passionate, within Higher Education, of ensuring that when student finish their degree programmes, they have achieved and reached their full potential, both academically and personally.

A main goal in taking this post, is to use my experience in Higher Education to enhance, empower and inspire pupils in the Academy.
