

Childwall Sports & Science Academy – Sophie Priest Biography

I am extremely proud to be appointed Chair of Governors at Childwall Science & Sports Academy. I am energised, enjoy collaborating with diverse people and building relationships based on trust and transparency. My values are at the forefront of everything I do.

I've been a Trustee on the Childwall in the Community Board since its launch in March 2021 and have got to know the school and local community. I now look forward to working with everyone within the school community to continue the splendid work being done to improve the pupils' life chances.

Professionally, I work for a consultancy business where my primary role is to work with organisations to identify and analyse their social, environmental and governance impact through the voices of the communities they serve.
