

Mike Rice	Co-opted Governor
-----------	-------------------

I joined as a co-opted Governor in September 2021.

I live local to the school and have spent all of my working life as a commercial and procurement expert with organisations that span both the private and public sector in areas such as manufacturing, retail, health, nuclear decommissioning and central government.

I currently work for the Commercial Function of the Cabinet Office with responsibilities to save the wider public sector money in areas such as I.C.T., temporary staff and other professional services.

I am an experienced team leader and I mentor and coach people to support their career development.

I am passionate about helping others grow their career through personal development and linking to new opportunities for which I will also support the school in my co-opted role.
