

# FILM/MEDIA STUDIES

CHILDWALL  
SPORTS &  
SCIENCE ACADEMY

## FILM /MEDIA STUDIES

Film has become a global art form and a key part of popular culture over the last century. This course seeks to enhance your understanding and appreciation of cinema beyond Hollywood, boosting your film literacy and critical skills. Film Studies is both challenging and rewarding, offering significant enjoyment.. Media Studies combines analytical and creative skills, enabling you to produce original media work. It examines media audience dynamics, consumption, responses, and representation across various types like advertising, TV, video games, and newspapers. You'll also gain photography and video editing skills for your media projects.

## Enrichment Opportunities

An extra-curricular programme which includes workshops, making links with industry professionals, film and journalism competitions, trips and visits (eg to New York), talks from guest speakers including former students and universities, and more.

## Related Higher Education Courses

- University/Higher/Degree Apprenticeship/ Employment.

## Future Careers

A Level Film Studies students can pursue various careers in Film, TV, Media, or Journalism. They gain skills for production roles and often study creative subjects. Media students typically focus on production degrees, specializing in areas like camera operation. Career paths include Journalism, TV/Film/Radio production, Advertising/Marketing, and Public Relations, with roles such as Product Manager, Media Producer, Digital Media Designer, Public Relations Officer, Social Media Consultant, and Journalist.
