

SPORT

SPORT

The sport sector is a fast-growing industry. It is currently worth £39 billion to the economy and continues to grow annually.

The Pearson BTEC Level 3 National Extended Certificate and Diploma in Sport is intended for post 16 learners who want to progress directly into employment in the sports industry. The qualification is also suitable for those wishing to progress to higher education, where learners would have the added advantage of using it to obtain part-time employment whilst studying. The course consists of **mandatory units** such as skill acquisition, **optional units** such as sport psychology and **exam units** such as anatomy and physiology.
