

Victoria Sumner	Co-opted Governor
-----------------	-------------------

It has been a pleasure to serve as a governor with the Childwall Sports & Science Academy since the spring of 2025. Unlike many governors, I am a recent (2023) transferee to Liverpool from the United States of America. I love living in the area but have not yet figured out which football club I should be supporting.

Although I currently work to foster alumni networks for working professionals, I previously worked as a district-wide administrator in Human Resources and Special Education in California. During my tenure, I trained teachers and staff, prepared and submitted state reports, audited our SEN systems, assisted with a software implementation, and acted as technical support. My geographically and thematically diverse work offers Childwall a different perspective. I am as comfortable working in an Excel sheet as mediating conversations.

Since moving industries, I have missed working in schools so I am especially thrilled to be a part of Childwall's Governance Committee. Serving on the Committee is an honour and I feel privileged to support the school as it grows.
