

A Multi-Tiered System of Support (MTSS) for school attendance involves three tiers of intervention, with roles for teachers, the school, children, parents and external agencies – including the Local Authority.

Data-driven decision-making and training requirements are pivotal to the implementation of the system.

The system aligns with the Department for Education's (DFE) "Working Together to Improve School Attendance" guidelines.

- Data Decision-Making: Regularly collect, analyse, and use attendance data at each tier to inform decisions and interventions.
- Training Requirements: School staff should receive appropriate training at each tier to effectively implement attendance strategies.
- External agencies: External agencies play a crucial role in data analysis, resource allocation, and training provision to support schools in improving attendance.
- Children and Parents: Effective communication and co-creation of any intervention support is pivotal to the success of the MTSS approach.
